# Digital OPG comes to Port Macquarie X-Ray on Monday 8th April

The OP200 D is state of the art in digital dental radiography. It is designed to produce the best quality images every time. This is aided by;

- Advanced high frequency generator technology
- Clinically correct imaging geometry (V-shaped X-ray beam)
- Automatic Exposure Control based on individual patient size
- Accurate 5-point patient positioning
- Automatic Facial Contour with modulated reduction in exposure (Cephalometric images)
- Multiple Imaging Programs
- OPG with artefact suppression
- Multiple panoramic settings
- Cephalometric
- TMJ
